VMS Gains The Reputation & Charm

About us

The GADOTT journey began with a profound recognition: INDIA demanded something extraordinary. Through years of meticulous research and market analysis, our founding vision identified a critical gap in the Indian luxury segment - the absence of bathware that truly understood and catered to the sophisticated Indian lifestyle while meeting international standards of design and engineering excellence.

Imagine water that listens. A faucet that feels like sculpture. A shower that doesn't just cleanse - it awakens.

This is the art of Italian design, breathing beauty into form.
This is the precision of German engineering, working quietly behind every movement.

And this is the resilience of Indian understanding, built for pressure drops, heat waves, and everything in between.

We obsess over details. The arc of a spout. The whisper of water. The tactile elegance that greets your fingertips, because for us, luxury isn't something you show. It's something you sense - and live with. Every day. Every touch. Every turn.

At GADOTT, the philosophy centers on the understanding that a bathroom transcends mere functionality - it represents a personal sanctuary, a reflection of individual taste, and a canvas for luxury.

GADOTT. Elevate every moment.

FAUCETS

Introducing the GADOTT Faucets collection - a seamless blend of modern design and timeless luxury. Each faucet is thoughtfully crafted with premium finishes such as brushed gold, matte black, copper, and chrome, offering a refined touch to contemporary spaces. Built for durability and smooth performance, these faucets bring both beauty and function to the forefront. With a focus on clean lines, sleek forms, and meticulous detail, GADOTT transforms everyday routines into elevated experiences, reflecting a lifestyle of understated elegance and exceptional quality.

AURIS

AURIS, from the Latin for “ear,” evokes refined sensitivity and aesthetic harmony. Its dual-tone finish creates a visual interplay of depth and contrast, while the textured handle adds a tactile richness. Designed as a sculptural accent, AURIS embodies quiet luxury—where form, finish, and feel converge in a statement of elegance.

GADOTT

GADOTT
auris

Texture that speaks.
Design that commands.

The AURIS basin mixer blends architectural lines with sensory detail. Its satin gold body is anchored by a finely knurled, criss-cross textured handle—offering both precision control and tactile luxury. Designed to catch the light and invite the touch, this piece redefines minimalism with a bold, sculptural edge.

GADOTT
auris

A striking balance of geometry and finish—these faucets redefine sophistication. With bold proportions and contrasting textures, each piece adds refinement to contemporary bathroom design.

Palette of Prestige

Designed to anchor the modern shower space, this thermostatic panel blends performance with presence. Bold colour accents—burnt orange, brushed gold, graphite—bring character to precision. With tactile dials and minimalist icons, it redefines the thermostat as a sculptural, intuitive interface for curated bathing rituals.

VELLON

VELLON is a symbol of understated expression, its handle etched with Morse-inspired texture—an homage to silent language. The name evokes brilliance and sophistication, aligning with the series philosophy: to communicate through design, not decoration. VELLON invites touch, attention, and introspection in spaces defined by thoughtful, refined design.

Step into a world where everyday rituals feel like a retreat — with GADOTT Showers. Designed to mirror the calm and power of nature, each shower head delivers a rainfall-like experience that transforms your bathroom into a sanctuary. Crafted with sleek precision and minimalist elegance, GADOTT's overhead showers offer consistent water flow, optimal pressure, and a clean, modern look. Whether you're starting the day or winding down, our showers bring the serenity of a private spa into your home — refreshing, immersive, and beautifully engineered for indulgence.

SERENIA

SERENIA is the art of silence cast in form—a design language fluent in balance and clarity. With each element perfectly composed, SERENIA offers a tactile expression of timeless minimalism and spatial grace. It doesn't speak loudly—it radiates calm, shaping spaces where elegance flows in the quiet between lines.

GADOTT

Where geometry meets rainfall luxury.
Designed to elevate every drop.

An elevated expression of contemporary wellness, this collection of overhead shower panels redefines indulgence with crisp geometries and luxurious finishes. From brushed gold to matte black and rich copper, each piece transforms overhead spaces into a canvas of symmetry, innovation, and immersive bathing experience.

BLISS

BLISS Inspired by the tranquil poetry of water and the gentle embrace of nature, BLISS reimagines the luxury bath experience with a refined, contemporary sensibility. Silken curves, harmonious proportions, and tactile finishes invite the senses to linger.

GADOTT

Where design
meets downpour.

Named for its sculptural elegance, the GADOTT Chandelier ceiling shower turns rainfall into a design statement. With its pendant-inspired silhouette and wide, enveloping spray, it elevates daily ritual into sensory indulgence. Available in four luminous finishes—Chrome, Brushed Gold, Graphite, and Matte Black—for a space that reflects pure sophistication. More than a shower, Chandelier is an architectural centerpiece—suspended beauty that brings balance, calm, and quiet opulence to the heart of the bathing space.

LUSSO

LUSSO redefines contemporary bathing with precision-crafted cylindrical forms and minimalist detailing. Available in radiant metallic finishes, each overhead and wall shower transforms function into a sculptural statement. Sleek, seamless, and indulgently tactile, LUSSO captures the essence of modern luxury through elemental geometry and refined materiality.
